

INNOMED

inspired by innovation

About Innomed

Established in 1984, The Innomed Group is a leading regional distributor of medical & aesthetic equipment.

Innomed offers a wide range of technologically advanced lasers, pulsed-light, radiofrequency, acoustic waves, skin analysis & imaging, weight-management, rehabilitation and holistic exercise systems, as well as compression garments.

Premier brands distributed by the group include Syneron-Candela, Canfield Imaging, Daavlin, Ellman, Lasering, Marena, and Storz Medical.

Innomed takes pride in promoting evidence-based products that provide innovative and effective solutions along with a high level of comfort, safety, efficacy, speed, ease-of-use and reliability. These devices and products give physicians and other practitioners numerous treatment options to enhance their practices.

Backed by a team of dedicated sales, technical and customer support staff, Innomed is committed to on time delivery of quality products and services to all customers, driven by continual improvement to meet total customer satisfaction.

Since February 2010, Innomed Pte Ltd has been accredited with the ISO 9001:2008 Certification for operating an effective quality management system as well as the HSA TS-01: Good Distribution Practice for Medical Devices Certification for operating a good distribution practice in Singapore.

Headquartered in Singapore, Innomed's areas of activities include Malaysia, Indonesia and Vietnam.
